## LIPO BATTERY

### Hacker F3A Battery WC-Support

**Hacker again would like to support the participants of the F3A World Championship 2019 in Italy with its on-site battery supply**

The requirements for the transportation of dangerous goods such as batteries and model fuels in commercial aircrafts have become more and more drastic in recent years. For many RC pilots it has become a serious problem to bring their batteries to the international competitions in their carry-on baggage. The participants often have to ship their batteries via complicated and expensive services heading for their international competitions. The Hacker Motor GmbH has reacted to this circumstance now offering the Hacker Battery Service in cooperation with the organizer of the championship:

All participants of the F3A-WC can make use of the time limited and price cut LiPo package deal for direct pick up on-site of the Competition:

<b>TopFuel LiPo 20C-ECO-X 4500mAh 5S (Order Number 34500531)</b>	<b>EUR 62,- / Pack</b>
<b>TopFuel LiPo 20C-ECO-X 4600mAh 5S (Order Number 44600531)</b>	<b>EUR 75,- / Pack</b>
<b>TopFuel LiPo 20C-ECO-X 5100mAh 5S (Order Number 45100531)</b>	<b>EUR 84,- / Pack</b>
<b>TopFuel LiPo ECO-RX 800 2S (Order Number 20750216)</b>	<b>EUR 6,70 / Pack</b>

## COLLATERAL ACTIVITES

On the occasion of this F3A World Championship, FIAM has organized a series of collateral activities dedicated to all those who are present in Calcinatello, be they competitors or spectators, as for example the Administration Information Desk in the area which is used for dancing in summer, where the participants also complete their registration.

The “services and gadgets sales point” is located in the blue inflatable FIAM stand near the entrance to runway A, and is managed by the twins, Laura and Linda Chistè.

For Saturday 10 and Sunday 11 August we have also arranged a special area for young spectators, where our instructors will help them construct small balsa wood models, “Balsetta” which are produced and offered by FIAM free of charge.

Furthermore we have also organized the market for the sale of second hand model aircraft material, on Sunday 11 August in the area adjacent to the tourist helicopter helipad, which will act as a backdrop for the spectacular show of model aircraft during the whole day.
